

# **Cyanobacterial blooms in Northern Territory inland waters**

**Simon Townsend,  
Charles Darwin University, Darwin.**

- No known anthropogenic cyanobacterial blooms in the NT

- Low intensity of land-uses
- No point sources of nutrient enrichment
- Climate

# Welltree Lagoon

# Potential for cyanobacterial blooms

- Warm waters
- Stratification
- Rivers: water extraction
- Nutrient enrichment
- Lagoons/billabongs: cattle
